REMARKS		25X1
	This is UNEVALUATED Information	

1. The following air activity and aircraft were observed at Dessau airfield, on 3, 5 and 6 October 1954:

25X1

On 3 October. Between 1030 and 1330, 26 MiG-15s or U-MiG-15s were parked in 2 rows side-by-side in the southeastern corner of the field. At 12 00, all of the aircraft taxied aft of each other to the take-off point and were parked there in elements of two. Subsequently, they took off in elements of two at intervals of from 8 to 10 seconds between the individual formations. The distance between the 2 aircraft of one formation was about 2 wing spans. The 26 aircraft took off within about 2 minutes. After the take-off, the aircraft flew a left curve and assembled in formations of four. While flying a large circle, 2 formations of 4 assembled in one formation, climbed to an altitude of about 500 meters, and disappeared from view while flying in a formation staggered to the right. There was an interval of about 100 meters between the 2 formations of 4 aircraft each. The individual formations of 4 flew in close-order formation. All of the aircraft were fitted with auxiliary fuel tanks. After a flight time of 30 minutes, all of the aircraft approached the field from various directions and landed individually at intervals of about 1,000 meters. The breaking of formation was not observed. After the landing, the aircraft taxied back to the southeastern corner of the field and were parked there. Another take-off was not observed.

25X1

25X1

5 October. Between 1100 and 1230, 26 jet fighters with running engines were again observed at the take-off point. The aircraft took off in elements of two at 1105. The interval and distance of the **departing** aircraft and the flight formation was the same as on 3 October. All of the planes headed toward the east. Their landings were not observed. The previously reported radio installation of one mast, 500 to 600 meters east of the runway, was removed at 1230. From this fact it was inferred that the unit left the field at 1105 on 5 October.

6 October. No aircraft were observed at the field nor was air activity conducted. 1

2. During the air activity on 1 October, a jet fighter crashed between Dessau and Toerten. the accident was caused

-2-

by engine trouble. The plane flew at low level, flew down a tree on a road and then crashed boring its nose into the ground. The pilot was seriously injured. The damaged plane was taken away on 2 October.²

3. On 1 October, a MiG-15 or U-MiG-15 crashed in Dessau/Toerten. The entire area of the accident was immediately blocked. The damaged aircraft was cut to pieces by cutting torches and then shipped away. The pilot was severely hurt.
